***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/25/2006 has been entered.

***Response to Arguments***

2. Applicant's arguments, see pages 2-8, filed 9/25/2006, with respect to rejection of claims 1-6 under 35 USC § 103 have been fully considered and are persuasive in view of the fact that the reference of Yang et al. (20040077178) fails to disclose the etching step of the described structure (protrusion) base is performed with an acid etchant. The rejection of claims 1-6 under 35 USC § 103 has been withdrawn.

***Allowable Subject Matter***

3. Claims 1-6 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Art Unit: 1765

5. Regarding claim 1, the cited prior art of record fails to disclose or suggest a method for making a forming structure, the method comprising the steps of "applying photoresist polymer to the upper surface and a side wall of the at least one protrusion; exposing the base sheet to acid for a sufficient time to form additional side wall of the at least one protrusion such that the side wall defines a second height, the second height being greater than the first height", in combination with the rest of the steps/limitations of claim 1. The closest prior art of record fails to disclose etching the protrusion base with an acid etchant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
